

MEETING MINUTES SUMMARY

ESI TDR INDUSTRY REFERENCE COMMITTEE

Tuesday 27 March 2018

Meeting Overview

- Meeting held in Sydney on Tuesday 27 March
- Industry Updates
- Update on Training Package Status

Current Training Package Updates

- An update of the review of Transition Project for the 16 ESI TDR qualifications was provided to the IRC. For an identified 5 Qualifications, 18 Skill Sets and 66 Units of Competency, three separate TAC's have been structured to work through Cert III, Cert II & IV, Diploma and Advanced Diploma.
- With the June deadline looming, the IRC decided to leave 55 Units in their current form and review later.
- IRC discussed draft wording around the selection of electives, weighting points and the weighting of units not listed, which requires further discussion.
- The IRC would like the opportunity to work with the other energy IRC's to discuss common issues and opportunities.

IRC Skills Forecast update

- The 2018 Key Findings Paper was discussed by the IRC and recommendations would be included in the upcoming 2018 Skills Forecast and Proposed Schedule of Work. AIS has been gathering data and collating information for the Skills Forecast throughout the year and AIS requested that any relevant industry reports or information on emerging trends be forwarded via the Industry Manager for consideration

Meeting Outcomes

- IRC decided to leave 55 Units in their current form and review later
- AIS to look at opportunities for the four energy IRC's to meet and collaborate
- Further research and feedback will be undertaken for potential new items of work
- IRC to provide AIS with submissions for Skills Forecast

Next meeting scheduled to be held in Brisbane 4 July 2018
