

MEETING MINUTES SUMMARY

ELECTROTECHNOLOGY INDUSTRY REFERENCE COMMITTEE

Tuesday 8 September 2020

Meeting Overview

- Meeting held via video conference
- UEE Training Package Projects update
- Industry updates/trends/technologies
- IRC Skills Forecast update
- Meeting Outcomes

Industry Updates

- AIS CEO outlined the extension to the SSO funding agreement and thanked IRC members for their ongoing contribution, participation and support to the IRC
- The IRC discussed the impact COVID-19 has had on the industry and discussed how the IRC could assist by identifying critical skill needs

Training Package Updates

- Review the Cert III Air-Conditioning and Refrigeration qualification to determine whether a separate post-trade qualification at either a Cert IV or diploma is required.
- AIS to include in 2021 Skills Forecast the development of a UEE LV Rescue unit.
- The electrician nested content was removed from relevant AQF4, 5 and 6 qualifications and an entry requirement introduced to replace it.
- Development of a unit to replace UEEEL0014 in the Electrical Fitter qualification to be added to the Skills Forecast.
- Identify all qualifications that contain UEECD0043 and UEECD0042 so these can be replaced by UEECD0044 and/or UEECD0046

IRC Skills Forecast update

- AIS led a discussion utilising a brief which had been compiled on recent trends and innovations in the industry. The aim of the brief was to assist with establishing the future skill needs and focus of the Skills Forecast
- Confirmation of projects for the Skills Forecast.

Meeting Outcomes

- Revise the Cert III air-conditioning and refrigeration qualification to see if it's a separate post-trade qualification
- AIS to organise a meeting with the three Energy IRC to investigate the renewables units

- AIS to Analyse statistics on the enrolments and Skill Sets for renewables
- AIS will investigate further the zero enrolments
- IRC to review the draft ARC Flashing.
-

Next IRC meeting scheduled Wednesday 24 Feb 2021
