

MEETING MINUTES SUMMARY

TRANSPORT & LOGISTICS IRC

11 November 2020

Meeting Overview

- Meeting held via Video Conference
- Zero Enrolment Units and Qualifications
- Training Package Updates
- Meeting Outcomes

Zero Enrolment Units and Qualifications

- AIS raised the recent directive received from the Department regarding the deletion of units and qualifications that have had zero enrolments for the past 4 years
- IRC members were asked to review the list of TLI 2 qualifications and 66 units and to advise of their confirmed deletion or provide rationale for them to be retained
- It was agreed to delete two of the sixty-six units flagged and the remaining to be investigated by AIS

Training Package Updates

- TLI Release 8.0 Projects - Fuel Storage Dangerous Goods Contractor and Logistics and Warehousing Operations projects - was submitted to the Department on 19 October to be considered at December 2 AISC meeting.

Meeting Outcomes

- AIS provided the T&L IRC with information regarding the two units flagged for deletion, and the IRC confirmed their possible deletion.
- Five new Fuel Storage Dangerous Goods Contractor units can be added to Certificate IV in Driving Operations, General elective group.
- The IRC confirmed equivalency for Certificate II in Supply Chain Operations from the Logistics and Warehousing Operations project.

Next IRC meeting scheduled for 16 February via Video Conference
